

UPDATED: MARCH 6, 2019

2019 HANDGUN INFORMATION AND TRAINING SCHEDULE

Location - CCW Critical Fundamentals & Implementation - All CCW Critical Fundamentals & Implementation Course will be held at the Sportsman Emporium on the first and third Tuesday of the month beginning on Tuesday, March 5, 2019 and continue until September 17, 2019. These courses will begin promptly at 4:00pm through 8:00pm. There will be other course conducted at various locations and times, to be determined, within the Morgantown area that may better serve your schedule. For more information on the locations, please make requests to Lew@assert.global. This, as well as all ASSERT Course are approved for applying for a CCW Permit with the Monongalia County Sheriff' Department.

Defensive HG Courses I through V - All Defensive HG Courses will be held at a private range in Bruceton Mills, WV. Directions will be given upon registration.

Course Registration - Students must pre-register for ALL courses at least one week prior to the course date. You must fill out the registration form and waiver (not required for the CCW course) and submit both with the course fee before you are considered registered for any course. Registration forms, waivers and course schedules will be available online in the future at ASSERT.GLOBAL and by request at Lew@assert.global . If you register for any course and are unable to attend, you must notify ASSERT prior to the course. ASSERT will work with you to re- schedule for an upcoming course. Certificates will be issued after successful completion of any course.

What to Bring - ASSERT encourages students to bring snacks, drinks & a lunch for the all-day courses. For the CCW courses, the only thing required is a note pad for taking notes. For the handgun courses, each student will be required to have a serviceable/safe handgun, appropriate eye & ear protection, sufficient ammo for the course and for the HG II and above courses, students will be required to have a holster, extra mag pouch, and a tactical or carry belt of good quality. Ammo is available through ASSERT at our cost plus a handling fee. The registration form asks for your caliber and if you need ASSERT to provide ammo for the class we will.

Special Note - It is customary for students to register for courses once they have successfully completed the pre-requisite class. For example. To register in ASSERT's Handgun II Course, students should have successfully completed the Handgun I Course. The exception to this is the CCW course which does not require a pre-requisite and the Handgun I Courses. If the student feels that they are competent enough to attend a course without a pre-requisite, they should contact the instructor for permission to register for the class. If, however, the student does not have the resident skills to successfully complete the requirements of the course, the student will be asked to attend a pre-requisite course that will be more appropriate for the development of their necessary skills.

Additional Information - If you have any questions regarding any of our courses, please contact Lew Soccorsi at 304.864.2506 and leave a message with your call back information or at Lew@assert.global .
